

Year 11 Preliminary Textiles and Design

120-hour teaching program | v2.0 Network Benchmark

Course	2-unit Preliminary, non-VET	Delivery	30 weeks 120 indicative hours
Planning	60 x 2-hour equivalent blocks	Balance	34 theory 14 folio 12 practical
Syllabus	Textiles and Design Stage 6 (2013)	Structure	Design 48 h Properties 60 h ATCFAl 12 h
Status	School-developed network candidate	Authority	Local approval and timetable conversion required

[Official Textiles and Design Stage 6 syllabus](#) · [Open Year 11 course site](#)

Official Preliminary outcomes

P1.1	describes the elements and principles of design and uses them in a variety of applications	P1.2	identifies the functional and aesthetic requirements and features of a range of textile items
P2.1	demonstrates the use of a variety of communication skills, including computer-based technology	P2.2	develops competence in the selection and use of appropriate manufacturing techniques and equipment
P2.3	manages the design and manufacture of textile projects	P3.1	identifies properties of a variety of fabrics, yarns and fibres
P3.2	justifies the selection of fabrics, yarns and fibres for end-uses	P4.1	identifies and selects textiles for specific end-uses based on analysis of experimentation
P5.1	examines the status of the Australian Textile, Clothing, Footwear and Allied Industries within the global context	P5.2	investigates the range of career options in design, consumerism, manufacturing and retail sectors of the Australian Textile, Clothing, Footwear and Allied Industries
P6.1	identifies and appreciates the factors that contribute to the quality and value of textiles in society		

Teacher to confirm before use

ID	Owner	Smallest required action
TTC-01	Head Teacher / class teacher	Convert the 60 two-hour planning blocks to the school's actual period length and periods per fortnight.
TTC-02	Textiles teacher / Head Teacher	Approve the Project 1 brief, pattern, materials, manufacturing sequence, equipment and local WHS controls.
TTC-03	Textiles teacher / Head Teacher	Approve the Project 2 Bustier/Vest brief, pattern, materials, manufacturing sequence, equipment and local WHS controls.
TTC-04	Textiles teacher / WHS owner	Approve each fabric-identification or textile-testing method, equipment, risk controls and supervision.
TTC-05	Head Teacher / assessment coordinator	Supply the current Textiles assessment schedule and approved issue-ready notifications; the 2026 Year 11 booklet omits this course.
TTC-07	Class teacher / Learning and Support	Confirm current resources, copying permissions, student adjustments and access arrangements for this cohort.
TTC-08	Head Teacher / class teacher	Approve this school-developed program and its local adaptations before implementation.

Blocks 1–8

B	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Design brief and requirements	Teach Module 1 section 'Design purpose, users and requirements'; students view the design lens and complete the 10-question check. Links: Module 1 design requirements section · Folio Card 1	Functional and aesthetic design; user, purpose, context and factors determining appropriate design.	Saved written response and Folio Card 1 P1.2
2	Site/theory	Elements of design	Teach 'Elements of design'; model evidence-based analysis; students complete the video prompt and 10-question check. Links: Module 1 elements section · Folio Card 2	Line/direction, shape/size, texture, colour/value applied across textile applications.	Written analysis and Folio Card 2 P1.1
3	Site/theory	Principles of design	Teach 'Principles of design'; compare examples; students complete the video prompt and 10-question check. Links: Module 1 principles section · Folio Card 2	Proportion, balance, rhythm, emphasis, contrast/harmony and unity.	Supported judgement and Folio Card 2 P1.1
4	Project/folio	Applied design analysis	Model the Design-analysis studio. Students analyse one textile item, improve the response and save the evidence. Links: Module 1 design-analysis activity · Folio Card 1 · Folio Card 2	Describe and analyse elements and principles; identify functional and aesthetic requirements.	Completed activity plus Folio Cards 1-2 P1.1, P1.2
5	Site/theory	Focus areas and design types	Teach with the completed Module 2 theory, checks and applied-practice activity. Links: Module 2	Functional and aesthetic design across apparel, furnishings, costume, textile arts and non-apparel.	Comparison notes P1.1, P1.2, P2.1
6	Site/theory	Factors affecting design	Model how environmental sustainability and manufacturing techniques shape a design response. Links: Module 2	Factors determining appropriate design; role of design in meeting functional and aesthetic requirements.	Evidence-based factor analysis P1.2
7	Site/theory	Inspiration and development	Students compare inspiration sources and explain how a concept changes through feedback and constraints. Links: Module 2	Generate, communicate, select and evaluate design ideas for a Preliminary textile project.	Annotated idea sequence P1.1, P2.1
8	Project/folio	Project 1 design direction	Students record the user, purpose, requirements and one developed design direction in Folio Card 3. Links: Module 2 · Folio Card 3	Apply elements and principles; select, analyse and record design idea development.	Folio Card 3 checkpoint P1.1, P1.2, P2.1

Blocks 9–16

B	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
9	Site/theory	Manufacturing and pattern information	Teacher explains approved pattern information, symbols, measurements and quality checkpoints; use the completed site module. Links: Module 3	Manufacturing methods; interpret, use and modify patterns for specific end-uses.	Pattern-reading check P2.1, P2.2
10	Project/folio	Manufacturing plan	Students prepare a teacher-approved order of work and quality checkpoints without inventing technical details. Links: Module 3 · Folio Card 3	Outline and justify project development and management steps; communicate production information.	Approved plan and Folio Card 3 P2.1, P2.3
11	Practical	Approved technique sample 1	Teacher demonstrates the authorised technique and controls. Students practise under supervision and retain one labelled sample. Links: Folio Card 4	Select and use manufacturing techniques appropriate to fabric and end-use.	Teacher-observed sample P2.2
12	Practical	Approved technique sample 2	Students repeat or extend an authorised technique, check quality and record one improvement. Links: Folio Card 4	Develop competence with appropriate manufacturing techniques and equipment.	Improved sample and feedback record P2.2, P2.3
13	Site/theory	Drawing and annotation	Teacher models object, fashion and production drawing conventions from authorised course sources. Links: Module 4	Graphical communication: object, fashion and industry production drawing specifications.	Annotated communication sample P2.1
14	Site/theory	Audience, purpose and medium	Compare verbal, written, graphical and digital methods; students select a method for a defined audience. Links: Module 4	Criteria for effective verbal and written communication; communication-based technologies.	Method selection explanation P2.1
15	Project/folio	Production communication	Students create a teacher-approved drawing or annotated specification for Project 1. Links: Module 4 · Folio Card 3	Develop competence in graphically communicating design ideas using appropriate media.	Communication evidence in Folio Card 3 P2.1
16	Project/folio	Design review	Run a short peer/teacher review. Students document one supported change and update their project plan. Links: Module 4 · Folio Card 3	Communicate, evaluate and modify design ideas; manage time and resources.	Approved change record P2.1, P2.3

Blocks 17–24

B	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
17	Project/folio	Project 1 readiness	Check approved brief, design evidence, pattern, resources and sequence. Students identify the next authorised action. Links: Module 5 · Folio Card 3	Manage project development; evaluate ideas; plan time and resources.	Readiness checkpoint P2.1, P2.3
18	Practical	Project 1 manufacture - stage 1	Teacher demonstrates the approved stage. Students manufacture under supervision and complete clean-down. Links: Folio Card 4	Project construction using appropriate methods, techniques and equipment.	Progress photo/sample and teacher checkpoint P2.2, P2.3
19	Practical	Project 1 manufacture - stage 2	Students continue the approved sequence, check accuracy and respond to feedback. Links: Folio Card 4	Apply manipulative skills and manage the textile project.	Technique evidence in Folio Card 4 P2.2, P2.3
20	Practical	Project 1 manufacture - stage 3	Students continue the approved sequence and record one quality issue or decision. Links: Folio Card 5	Use appropriate manufacturing techniques; manage time and resources.	Folio Card 5 change/checkpoint P2.2, P2.3
21	Practical	Project 1 manufacture - completion	Students complete the approved construction sequence and carry out teacher-directed quality checks. Links: Folio Card 6	Complete and evaluate a Preliminary textile project using appropriate methods.	Completed product evidence P2.2, P2.3
22	Practical	Project 1 evaluation evidence	Students photograph the authorised result, compare it with requirements and record a realistic improvement. Links: Folio Card 6	Evaluate ideas and project; substantiate conclusions with factual evidence.	Folio Card 6 evaluation P1.2, P2.3, P4.1
23	Site/theory	Fibre classification	Teacher-led classification lesson using the approved properties booklet; use the completed site module. Links: Module 6	Natural, regenerated and synthetic fibre types and classifications.	Classification map P3.1
24	Site/theory	Molecular fibre structure	Explain monomer, polymer, amorphous and crystalline regions with verified diagrams. Links: Module 6	Molecular structure and its contribution to fibre properties.	Labelled explanation P3.1

Blocks 25–32

B	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
25	Site/theory	Morphological fibre structure	Compare surface and cross-sectional features, staple, filament and multifilament forms. Links: Module 6	Morphological structure and its contribution to fibre properties.	Structure-property notes P3.1, P3.2
26	Project/folio	Fibre-to-end-use reasoning	Students choose one verified fibre example and justify an end use using structure and properties. Links: Module 6 · Folio Card 7	Select fibres for specific end-uses using evidence about properties.	Folio Card 7 rationale P3.1, P3.2
27	Site/theory	Natural cellulosic fibres	Teach cotton origin, structure, processing, properties and end-use from approved sources. Links: Module 7	Properties of natural cellulosic fibre; cotton classification and performance.	Cotton evidence table P3.1
28	Site/theory	Natural protein fibres	Teach wool origin, structure, processing, properties and end-use from approved sources. Links: Module 7	Properties of natural protein fibre; wool classification and performance.	Wool evidence table P3.1
29	Site/theory	Manufactured fibres and blends	Compare viscose rayon, polyester, nylon, elastomeric and the required blends. Links: Module 7	At least one regenerated, three synthetic fibres and two fibre blends.	Comparison check P3.1, P3.2
30	Project/folio	Fibre selection	Students justify one natural and one manufactured fibre or blend for contrasting end uses. Links: Module 7 · Folio Card 7	Describe fibre properties and justify fibre selection for end-use.	Folio Card 7 comparison P3.1, P3.2
31	Site/theory	Staple-spun and filament yarns	Compare staple-spun and filament construction and apply correct terminology. Links: Module 8	Spun staple and filament yarn structure and characteristics.	Yarn classification notes P3.1
32	Site/theory	Twist and spinning systems	Explain low/high twist and carded/combed or woollen/worsted distinctions. Links: Module 8	Twist level and spinning systems that affect yarn and fabric properties.	Structure-property explanation P3.1

Blocks 33–40

B	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
33	Site/theory	Textured and novelty yarns	Identify textured, slub, boucle and core-spun examples from verified sources or teacher samples. Links: Module 8	Textured and novelty yarn structures and characteristics.	Identification evidence P3.1
34	Project/folio	Yarn structure evidence	Students select one yarn structure and explain how it contributes to fabric behaviour. Links: Module 8 · Folio Card 7	Identify yarn characteristics that affect fabric properties.	Folio Card 7 yarn record P3.1, P3.2
35	Site/theory	Yarn aesthetic and comfort properties	Teach how yarn structure affects appearance, handle and comfort. Links: Module 9	Yarn aesthetic and comfort properties and their effect on fabric performance.	Cause-effect notes P3.1
36	Site/theory	Yarn durability, strength and care	Compare durability, strength and care demands using verified examples. Links: Module 9	Yarn durability, strength and care properties.	Comparison response P3.1
37	Site/theory	Structure-property relationships	Model a chain from fibre to yarn structure to fabric performance and end use. Links: Module 9	Interrelationship of yarn structure, yarn properties and fabric performance.	Completed reasoning chain P3.1, P3.2
38	Project/folio	Yarn end-use justification	Students justify a yarn selection for a specific textile end use using evidence. Links: Module 9 · Folio Card 7	Demonstrate understanding of yarn properties when selecting fabrics for end-use.	Folio Card 7 justification P3.2
39	Site/theory	Woven structures	Teach warp, weft and selvedge, then compare plain, twill, satin, Jacquard, crepe and pile weaves. Links: Module 10	Woven fabric structure, terminology, types and classification.	Woven comparison P3.1
40	Site/theory	Knitted structures	Teach course and wale, then compare the required knitted fabric types. Links: Module 10	Single, double, tricot, pile, lace and net knitted structures.	Knitted comparison P3.1

Blocks 41–48

B	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
41	Site/theory	Non-woven structures	Compare felt, web and film structures and link construction to likely performance. Links: Module 10	Non-woven fabric structures, classification and properties.	Non-woven analysis P3.1, P3.2
42	Practical	Fabric structure identification	Using teacher-approved samples and method, students identify structure and record evidence rather than appearance alone. Links: Folio Card 7	Identify fabric structures and describe properties affected by structure.	Folio Card 7 sample record P3.1, P3.2
43	Site/theory	Properties and end use	Compare aesthetic, durability, comfort, dimensional stability and care properties. Links: Module 11	Fabric and fibre properties used when selecting fabrics for specific end-uses.	Property-to-end-use table P3.1, P3.2
44	Site/theory	Planning a fair textile test	Model an aim, variables, consistent method, results table and evidence-based conclusion without supplying an unapproved method. Links: Module 11	Use functional and aesthetic tests to record and evaluate results.	Fair-test plan P4.1
45	Project/folio	Test plan and results structure	Students prepare Folio Card 8 fields and a teacher-approved recording format before testing. Links: Module 11 · Folio Card 8	Plan experimental procedures; communicate and record information.	Approved aim/variables/results table P2.1, P4.1
46	Practical	Authorised comparative textile test	Teacher demonstrates the approved method and controls. Students test, record results and clean down under supervision. Links: Folio Card 8	Evaluate fabric properties using classroom testing procedures.	Results and observations in Folio Card 8 P3.1, P4.1
47	Project/folio	Evidence-based Project 2 choice	Students analyse authorised test results and justify one fabric, yarn or fibre selection for the confirmed project. Links: Module 12 · Folio Card 8 · Folio Card 9	Make decisions about textiles using analysis of properties and experimental evidence.	Folio Cards 8-9 P3.2, P4.1
48	Practical	Project 2 manufacture - stage 1	Teacher demonstrates the approved Bustier/Vest stage. Students work under supervision and complete clean-down. Links: Folio Card 9	Project 2 construction using techniques appropriate to fabric and end-use.	Progress evidence P2.2, P2.3

Blocks 49–56

B	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
49	Practical	Project 2 manufacture - stage 2	Students continue the approved sequence, check quality and record a supported decision. Links: Folio Card 9	Apply manipulative and management skills; communicate and record information.	Teacher checkpoint and Folio Card 9 P2.1, P2.2, P2.3
50	Practical	Project 2 completion and evaluation	Students complete the authorised item, collect product evidence and evaluate design, selection and manufacture. Links: Folio Card 9	Evaluate textile selection and project outcomes using factual evidence.	Completed Folio Card 9 P2.3, P3.2, P4.1
51	Site/theory	Industry development and sectors	Use current primary evidence to outline one ATCFAl sector and its development; use the completed site module. Links: Module 13	Role of textiles; sectors; development across the 19th, 20th and 21st centuries.	Verified sector timeline P5.1
52	Site/theory	Local and global context	Compare Australian industry participation with global markets and identify one current issue using dated sources. Links: Module 13	Contribution to local/global markets; issues, trends and future opportunities.	Source-based comparison P5.1
53	Site/theory	Careers and training	Students investigate one current career pathway, required training and changing work context. Links: Module 13 · Folio Card 10	Current and future employment and training opportunities across ATCFAl sectors.	Career profile for Folio Card 10 P5.2
54	Site/theory	Quality assurance and control	Compare design, trademarks, fabric quality, legislation, assurance checks and control measures. Links: Module 14	Influences on quality; methods of quality assurance in the marketplace.	Quality case notes P6.1
55	Site/theory	Roles and value	Examine manufacturer/consumer roles and perceived, cultural and economic value. Links: Module 14	Factors contributing to quality and value across textile end-uses.	Comparative value analysis P6.1
56	Project/folio	Industry quality/value case	Students build one sourced case analysis and record title, organisation, date and location. Links: Module 14 · Folio Card 10	Investigate quality assurance and discuss factors contributing to textile value.	Completed Folio Card 10 P6.1

Blocks 57–60

B	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
57	Site/theory	Design retrieval and response planning	Retrieve Design concepts, diagnose gaps and plan one supported response using command terms. Links: Module 15	Design content from elements/principles through communication, manufacture and Project 1.	Low-stakes check and response plan P1.1, P1.2, P2.1, P2.2, P2.3
58	Site/theory	Properties retrieval and response planning	Retrieve fibre, yarn, fabric, testing and selection concepts; correct misconceptions. Links: Module 15	Properties and Performance content; experimentation and end-use selection.	Low-stakes check and response plan P3.1, P3.2, P4.1
59	Site/theory	Course synthesis	Students connect design, textile performance and industry/value in unfamiliar examples. Links: Module 15	Integrated application of the three Preliminary areas of study.	Timed practice and feedback P1.1, P1.2, P2.1, P2.2, P2.3, P3.1, P3.2, P4.1, P5.1, P5.2, P6.1
60	Project/folio	Evidence and course review	Students check Folio Cards 1-10, identify incomplete evidence and prepare a personal revision priority list. Links: Module 15 · Student folio and course evidence	Evaluate and communicate project, experimental and industry evidence across the course.	Folio completeness record and next-step plan P1.1, P1.2, P2.1, P2.2, P2.3, P3.1, P3.2, P4.1, P5.1, P5.2, P6.1
